To Whom It May Concern,

I do not support replacing FM translator service with LPFM. There is significant value to my family and me as the types of transmissions offered by FM translator are not available in smaller markets like ours (Tucson). The availability of the FM translator stations, specifically K-LOVE, enables us to connect with others in the country of like mind in a positive way in a very disjointed world. If K-LOVE were displaced by LPFM, it would not be replaced by a similar station in Tucson, and the opportunity for us to grow together as a national community with similar views would be eliminated. The service provided by K-LOVE to my family and myself serves the public interest.

Please do not replace FM translator services with LPFM.

Thanks,  
Susan Dimka
